

BKM Resin cleaner highly effective cleaner against polyurethane pollution

Application areas

BKM Resin cleaner is used as cleaning agent during the working process and afterwards as cleaner and lubricant of injection devices. Primarily the product is used for the cleaning of injection pumps. Not already cured polyurethane resin can be removed. Cured polyurethane resins can only be removed mechanically.

Product advantages

- VOC-free
- Ready to use
- Mild smell
- Very effective

Product description

BKM Resin cleaner is a high effective, transparent, special developed, VOC- free cleaning agent / solvent. The product has a mild smell. The cleaner has also excellent lubricating properties and can be used in injection pumps.

Specification

Base :	special solvent
Color :	transparent
Processing temperature :	+5°C up to +40°C
Density :	approx. 1.09 g/cm ³
Consistency :	liquid
Smell :	mild
Viscosity :	2.6 mPa/s at 25°C
Flashing point:	approx. 103°C

All technical datas are measured in our laboraty.

Please take notice about the safety information and advice given on the safety data sheets and packaging labels.

Delivery form

10 kg canister

Article-No. H-001-403

Storage

12 months

(frost-free and dry, +5°C up to +25°C in original packaging)

Remarks

The information given in this technical data sheet corresponds to the current state of development and is based on our experience, our knowledge and is non-binding. An investigation has to be done with focus on the respective building project and the area of application. The technical expert advice of BKM employees does not exclude the planning or control by an engineer. We are liable within the scope of our general delivery and sales conditions, we are not liable for the application of our materials. The generally accepted rules of technology must be observed. If necessary, preliminary tests have to be carried out.

All previous versions of this technical data sheet are not valid anymore and should not be used anymore.
